Filter by topic and age category

Topic history chart

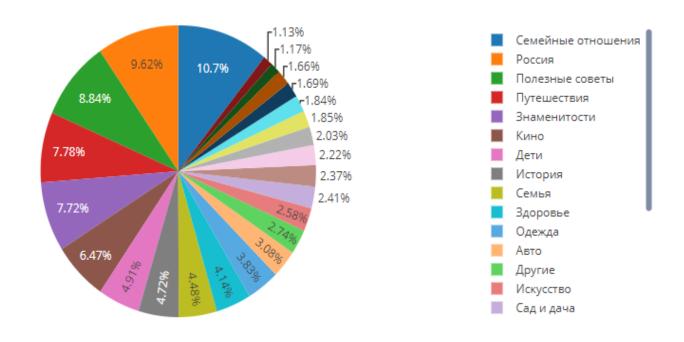

This graph allows you to track the dynamics of changes in user activity over time with a breakdown by topic cards.

Pie chart of the proportion of visits by topics,%

This graph allows you to track the dynamics of changes in the popularity of cards depending on the topic in relative terms.

Topics that occupy less than 1% of users are grouped into a separate topic: "Other"

Graph of average interaction depth

This graph reflects the average conversion rate of transitions from showing a card to viewing it.
